BACKGROUND

Jeremy has worked for 25 years in the professional services sector. With a degree in law, and spells variously as IT manager, partner, software developer and management consultant, Jeremy has acquired a host of technical, practical and commercial skills.

Jeremy combines a thorough understanding of professional firms, a sound grasp of technical disciplines, and a pragmatic and effective approach to provide IT leadership and guidance to more than 20 of the Top 60 accountancy firms in the UK.

SKILLS

Jeremy's skills include

- Solution-orientated board-level advice and strategic planning
- Technical and team leadership and guidance
- Solution, system and process design
- Internal and external challenge and dispute resolution
- Vendor appointment and management

EXPERIENCE

Jeremy began his career with a Top-50 firm of accountants in London, where he chaired the UK200 IT Group, produced the first document management system for accountants, and developed an IT business within the firm. He went on to establish and operate an IT services business before returning to his consulting roots and founding Jeremy Hyman Associates in 2017.

Jeremy is a familiar (and generally welcome) face amongst the larger firms of accountants in the UK.
